Electricity

Commercial Utility Brokers (UK) Ltd has been using its expertise to assist large and small, single or multi site electricity users since 1994. Our family run business provides over 70 years of knowledge and experience throughout the UK and Europe.

Service Support

You can now choose a number of different ways to buy your electricity. Our award winning staff will help you to find the best contract to meet with your business needs.

We will discuss the different types of electricity contracts with you and the advantages and disadvantages of each one. This will help you to make an informed decision about which type of contract will deliver the best value for money.

To reduce your exposure to risk of higher prices we will also offer you a strategic method of purchasing.

Flexible Purchasing

CUB UK are at the forefront of developing new flexible contract for our customers. By listening to our customers needs we work to develop tailor made contract and services that keep you in control of your electricity costs.

Fixed Price Tracking (FPT)

Electricity prices are changing daily and it is important to know how it will affect your business. CUB UK have developed a unique market tracking tool which provides us with the ability to provide daily comparisons of what you are likely to pay for your electricity.
