I have been working with Commercial Utility Brokers (UK) Ltd since February 2009 and I have found them to be professional, efficient and friendly. They have obtained a very competitive gas deal for us for a two year contract period and they are now monitoring the next contract renewal price for our electricity deal due next year.

They offer an excellent ongoing service and are always available to answer any queries we may have. I would happily recommend Commercial Utility Brokers (UK) Ltd to any business looking for a straightforward approach to managing their utility costs.

Kevin Whitehouse – General Manager – Collingtree Park Golf Club
