To Whom It May Concern

I approached CUB in 2010 when our business joined The Cotswold Food Partnership family of companies. CUB were already the consultant of choice for a sister company Sparks Confectioners Ltd, therefore I felt they would be the right consultant to meet our requirements.

I was very impressed with the efficiency of Matthew Plumb, my internal account manager, in getting contract offers for our electricity and gas supplies, which minimised the time we spent on higher out of contract rates.

We recently renewed these supply contracts with CUB and following a recent visit by Louis Fairfax, my external account manager, we are now looking into the possibility of reducing our water costs through an appraisal of our bills.

I am happy to recommend the services of CUB for any business looking for a professional and efficient partner for energy.

Yours sincerely
