## To Whom it May Concern

We were approached by Commercial Utility Brokers (UK) Ltd in October 2008 and we were immediately impressed with their professional and efficient approach. Following an initial meeting CUB where in a position to look into the costs for our Gas and Electricity contracts.

They provided us with a competitive long-term offer for our gas contract, which we are very happy with. Our electricity contract is already tied in for several years. CUB are monitoring the power market fir us in anticipation of an early contract renewal when the conditions are right.

I would happily recommend CUB to anyone who is looking for a competitive deal and the peace of mind that they have an expert on board.

Yours faithfully
